

Safe and reliable packaging for dangerous goods

With a proven record of safety and reliability in dangerous goods packaging, the Harcostar Tight Head plastic drum offers outstanding value.

Designed especially for the carriage of liquids, Harcostar Tight Head drums are ideal for most chemicals and foodstuffs, including many hazardous products.

Developed under license from Mauser-Werke GmbH of Cologne, the 60 litre Tight Head has been thoroughly proven over many years, used by leading food and chemicals manufacturers throughout the world.

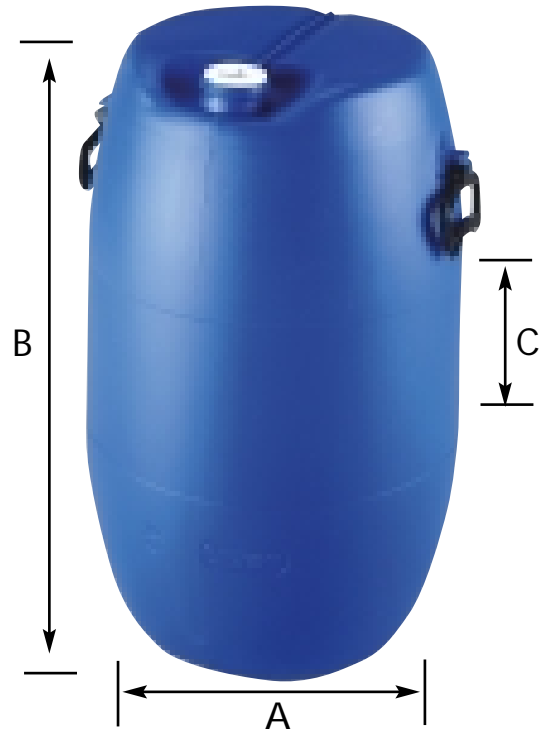

Safe and easy to handle

Plastic overseas can be fitted for effective tamper evident protection

Harcostar Tight Head Drum

- Exceptionally strong and durable, yet light in weight.
- Safe and easy to handle.
- Fitted with a buttress thread bung with EPDM washer.
- Plastic overseals can be fitted for effective tamper evident protection.

- Extrusion blow moulded in one process using high molecular weight high density polyethylene (HMW-HDPE), which may be recycled or incinerated harmlessly for its high energy value.
- 100% on-line leak tested.

- UN certified for the transport of Group II dangerous liquids.
